Innovation Ready Industry 4.0

«Λύσεις Industry 4.0 που αλλάζουν τα δεδομένα στη βιομηχανική παραγωγή»

Τετάρτη 27 Ιανουαρίου 2021 | 16:30

Προτάσεις που θα παρουσιαστούν

1. **Bespot:** *Bespot develops accurate positioning & location analytics solutions.*

Bespot develops (a) User Tracking (b) Indoor Positioning, (c) Location, Shopper and Basket Data Analytics technology solutions utilizing Machine Learning & IoT.

TRL	9	Time to market (months)	1	Funds invested (€k)	945	More funds needed (€k)	-
-----	---	-------------------------	---	---------------------	-----	------------------------	---

2. **Bota Systems AGSA:** *We give machines the sense of touch*

High performance force torque sensors solution for robots that need to interact with humans and their environment

TRL	9	Time to market (months)	0	Funds invested (€k)	685	More funds needed (€k)	1000
-----	---	-------------------------	---	---------------------	-----	------------------------	------

3. **Data Viva:** *Dataviva Optimizes Data-Driven Processes*

Dataviva has built a next-gen planning and supply chain execution platform that can optimize and automate data-driven operations by plugging in to existing IT infrastructure

TRL	8	Time to market (months)	1	Funds invested (€k)	1000	More funds needed (€k)	2000
-----	---	-------------------------	---	---------------------	------	------------------------	------

Προτάσεις που θα παρουσιαστούν

4. Ebneusys: *Make your equipment work for you*

IoT device for monitoring location and working conditions on any kind of equipment, mobile or standing

TRL	7	Time to market (months)	2	Funds invested (€k)	20	More funds needed (€k)	100
-----	---	-------------------------	---	---------------------	----	------------------------	-----

5. Irida Labs: *Transforming image and video into KPIs that matter for the Industry 4.0 era*

End-to-end AI software and services platform that supports the full Vision-AI product lifecycle. Integrating ML models for people, vehicles, or any type of object detection together with vision system design, data management and ready to use deployment tools for on-device intelligence.

TRL	9	Time to market (months)	1	Funds invested (€k)	720	More funds needed (€k)	3000
-----	---	-------------------------	---	---------------------	-----	------------------------	------

6. Loctio: *Democratizing Precise Location Capabilities for IoT Devices*

Cloud/Edge service for the positioning estimation of IoT devices (SaaS)

TRL	7	Time to market (months)	1-6	Funds invested (€k)	500	More funds needed (€k)	3000-4000
-----	---	-------------------------	-----	---------------------	-----	------------------------	-----------

Προτάσεις που θα παρουσιαστούν

7. **Netronix-Airthinx: *Turning any place into a safer space.***

See the air you breathe!!! Airthinx has developed the platform (hardware and software) that monitors indoors / outdoors air quality and optimizes continuously the conditions to offer a safe and health environment for everyone

TRL	9	Time to market (months)	1	Funds invested (€k)	500	More funds needed (€k)	2000
-----	---	-------------------------	---	---------------------	-----	------------------------	------

8. **Phenometry: *Surface modeling reinvented***

Phi: A cloud-based freeform surface modeler

TRL	8	Time to market (months)	1-2	Funds invested (€k)	900	More funds needed (€k)	-
-----	---	-------------------------	-----	---------------------	-----	------------------------	---

9. **Pragma-IOT: *OEM IoT Platform agnostic of domain, sensor or gateway***

Several applications for multi industry purposes. IoT platform with embedded intelligence for Industry optimized operation & maintenance (performance (e.g. OEE, TEEP), data explore, data analysis, comparisons, rules, dynamic dashboards & reports, etc.)

TRL	9	Time to market (months)	-	Funds invested (€k)	1075	More funds needed (€k)	-
-----	---	-------------------------	---	---------------------	------	------------------------	---

Προτάσεις που θα παρουσιαστούν

10. Tekmon: *The easiest way to remove pen & paper processes from the factory floor*

A cloud technology to setup your field processes with no IT support within a day. Digitize paper forms, QC and H&S checklists, Maintenance & Production plans.

TRL	1-9	Time to market (months)	1	Funds invested (€k)	550	More funds needed (€k)	-
-----	-----	-------------------------	---	---------------------	-----	------------------------	---

11. Yodiwo: *Smart Infrastructure Management based on Artificial Intelligence of Things (AIoT)*

An IoT-driven platform that creates digital twin and Integrates multiple Facility Management Services aiming to reduce the operating cost in parallel with wellbeing and productivity improvement

TRL	9	Time to market (months)	3	Funds invested (€k)	3000	More funds needed (€k)	3000
-----	---	-------------------------	---	---------------------	------	------------------------	------
